Career Objective

I recently graduated from KL University with a strong foundation in HTML, CSS, JavaScript, Python, and web development. I am eager to begin my career as a Software Developer, where I can apply my technical skills, problem-solving abilities, and willingness to learn to develop innovative solutions while contributing to the organization's success. I am a quick learner, adaptable, and committed to continuous professional growth.

Technical Skills

Programming: Javascript, HTML, CSS, Bootstrap, Tailwind CSS

Data Visualization: Excel, Power Point, MS Word

Tools: Git, GitHub, Windsurf AI

Soft Skills

• Communication - Problem-solving - Teamwork - Adaptability - Quick-Learner

Education

Bachelor of Computer Science and Engineering	2022–2026
Koneru Lakshmaiah University, Guntur, Andhra Pradesh	CGPA: 8.2
Higher Secondary Certificate	2021–2022
Kennedy High the Global School, Hyderabad	First Class
Secondary School Certificate	
2019–2020	
Kennedy High the Global School, Hyderabad	First Class

Projects

Fashion Designing System - Mern Full Stack

<https://github.com/prasanpaulmurala-lgtm/Fashion-Design.git>

- Developed a Fashion Designing System using the MERN stack to streamline design workflows , manage portfolios , and enhance client-designer interaction .
- Built a responsive React.js frontend with real-time previews , design uploads , and intuitive UI for seamless user experience .
- Created RESTful APIs with Express.js and Node.js, integrated with MongoDB for managing user data, design assets, and feedback .
- Implemented JWT-based role authentication and an admin dashboard for user management , project tracking , and performance monitoring .

BiteBox - HTML, CSS, JavaScript

<https://github.com/prasanpaulmurala-lgtm/BiteBox.git>

- Developed a responsive food ordering website using HTML, CSS, and JavaScript.
- Designed user-friendly menus, categories, cards, buttons, and navigation.
- Added cart, quantity updates, and dynamic price calculations using JavaScript.
- Optimized the website for desktop, tablet, and mobile devices.

ChaloChale - BootStrap

<https://github.com/prasanpaulmurala-lgtm/ChaloChale.git>

- ChaloChale is a travel web application designed to help users explore destinations and plan their trips conveniently.
- It provides destination browsing, travel booking, user login/signup, and contact functionality through a simple interface.
- The application focuses on creating a responsive and user-friendly experience for travelers.
- This project helped me strengthen my skills in frontend development, UI design, and building interactive web applications.

Certifications & Courses

Microsoft Certified: Azure AI Fundamentals: 2025

Automation Anywhere Certified Essentials RPA Professional: 2023

Aviatrix Certified Engineer Multicloud Network Associate: 2025

Salesforce Certified AI Associate: 2024
